## SISTEME DE SECURITATE

### ALARMARE & SUPRAVEGHERE VIDEO

**Dear Madame/Sire**

**BFO Security Systems Company** offers you design, installation and maintenance services during the warranty period and afterwards for security systems against robbery and video surveillance systems.

<b>Security systems against robbery</b> <ul style="list-style-type: none"><li>• Security panels, alarms with acoustic and light warning</li><li>• Possibility for monitoring station connection</li><li>• Movement and door/window opening detector</li><li>• Broken window detector</li><li>• Fire detectors</li></ul>	<b>Access control systems</b> <ul style="list-style-type: none"><li>• Talk-back</li><li>• Video-talk-back</li><li>• Programmed cards</li><li>• Check systems</li></ul>
<b>Video surveillance systems</b> <ul style="list-style-type: none"><li>• Indoor and outdoor video surveillance cameras</li><li>• Video cameras for special applications</li><li>• Image storage solutions: digital video recorders, computers</li></ul>	<b>Automations</b> <ul style="list-style-type: none"><li>• Automatic gateway</li><li>• Barrier</li><li>• Electromagnetic locks</li></ul>

Our company is authorized by the **General Police Department** in order to design, install and maintain security systems against robbery, authorization no. **0417/T/16.05.2005**, issued on the basis of the Act no. 333/2003.

Our company guarantees to its clients both high quality and professional services. Among the services performed by our company, we would mention risk evaluation, consulting services for finding the best solution that would satisfy our clients' interests and needs; we also offer you update and upgrade services on a long period of time, in order to assure the best functioning conditions of the equipment provided. The warranty offered for the equipment is at least 12 months (manufacturer warranty) and for the cables and connections provided by us we offer a 3 years warranty, starting with the date the maintenance contract was concluded.

**BFO** Company also imports in Romania control systems  designed to monitor the watchmen's shifts. The systems we provide are made up of resistant, anti-vandalism devices with a high level of resistance to collision, overuse and short-circuits. The system is made of all the necessary elements

including readers, control points, keys designed for watchmen authentication, chip from data transfer, software application with a friendly interface (it will soon be available in Romanian) and also a complex checking and adjustment of data system.

*In the following, we present you some of the ones who did not hesitate to contact us and who became our partners:*

*You can become one of our partners as well!*

Each site has its own particular features. Each beneficiary has its particular needs. Each place has its own history. We **do not** offer you equipment and devices. We **do not** offer you services. **We want to offer you solutions, answers. We offer you security and protection.**

You are not our client, you are our partner. Together we shall identify the weak points and we shall find the best solutions. Together we shall improve these systems. Our partnership shall continue in order to maintain and improve the security system in your best interest and protection possible.

Keep in mind the requirements of the Act no. 333/2003: Art.4: "...responsible for providing protection measures for the assets and values of any kind are the companies managers ..." Art. 28: "The companies managers who posses assets, values and documents stocking supports ... are bind to assure the control, the mechanical and physical means of protection and the security systems against house breaking ..."

In order to test the equipments and to choose from of a wide range of solutions that we provide, you are expected to contact us to the company's office. If necessary, you are also invited to ask for further information.

***Don't hesitate to become one of our partners because together we could build a safer future!***

Best regards,

**BFO** Team
